Newsletter

International Council on Combustion Engines

www.cimac.com

June 2005

Dear friend of CIMAC,

this is issue no. 10 of the CIMAC Newsletter to keep you updated on CIMAC's activities. The aim of our newsletter, which appears on an irregular basis, is to supply our members and all those interested in CIMAC and its activities with a short information on news items. Further details will be given on our website www.cimac.com – just follow the links.

- a CIMAC panel discussion on 'Coming Sulphur Regulations – Challenges to the Marine Industry' has taken place during **NORSHIPPING 2005** organised by the **Norwegian CIMAC NMA**. A short report can be found under http://www.cimac.com/congress_events/Index1-events.htm
- a new Corporate Member has joined CIMAC: the company **Soluziona O&M** located in Spain. At its last meeting the CIMAC Council approved the application. CIMAC welcomes the new member and is looking forward to a successful cooperation. An overview of the current members of CIMAC is available at <http://www.cimac.com/aboutcimac/Index1-members.htm>
- a **new CIMAC Working Group** has been established on the topic '**Auxiliary systems – design**' with the aim to develop recommendations about the layout of auxiliary systems and to determine general design rules. More details are available at

<http://www.cimac.com/workinggroups/Index1-working-groups-engine-specification.htm>

Please note that **only CIMAC members** are entitled to participate in **CIMAC Working Groups!** Therefore, before you consider joining a CIMAC Working Group you should be sure that you are a CIMAC member - either via the national CIMAC organisation (NMA) or as a Corporate Member (CM) in countries where no CIMAC NMA exists. If you are in doubt about your CIMAC membership please contact CIMAC Central Secretariat for advice at cimac@vdma.org

*If you do not wish to receive
our newsletter in the future
please return this mail marked
'Unsubscribe' and we will delete
you from our mailing list.*
