

International Symposium on I. C. Engine 2007

Environmental Protection and Energy-saving - Two Important Missions to I.C. Engine Industry

On Friday , 12th October 2007, 9:00-17:30
Shanghai New International Expo Center,
2345, Long Yang Road, Pudong , Shanghai
P.R.China

Environmental protection and energy-saving become very important missions to Chinese government and people. China will hold Olympic Game in 2008 in Beijing and many world important meetings will take place in China in the following years, so now Chinese Government has paid more attention than ever to environmental protection and energy-saving. Many measures have been taken and many strict regulations put into force. Along with the steady growth of comprehensive national strength in the past two decades, China is able to purchase world advanced technology in order to control the engine exhaust emissions and save energy.

Your company is one of the world most experienced companies in solving the engine exhaust emissions and saving energy. You are kindly invited to contribute a technical paper in these aspects and deliver your paper in the upcoming International Symposium on I. C. Engine 2007, the most attractive event in the world and China Engine community. More than 200 participants will attend this event. Your experience and new technology will assist Chinese government departments concerned and engine enterprises solve the existing environmental pollution and energy-saving problems and it will expand the further influence of your company in China Engine market in one hand. You will obtain latest information pertaining the policy of Chinese government towards the environmental protection and energy-saving, thus creating good opportunity for your company to obtain orders and meet the potential Chinese customers in the other hand.

Besides, your paper will be collected in the "PAPERS OF INTERNATIONAL SYMPOSIUM ON I. C. ENGINE 2007" which will be circulated in China engine community.

Join Us and don't miss this valuable chance.

Concurrent Events with the Symposium 2007:

- China Engine'2007 & PTC ASIA
- The 7th Annual Academic Congress of CSICE

We wish to receive the title of your paper with short abstract, author's name, corresponding address before the end of April 2007.

If you have any question, please don't hesitate to contact us. Our address is as follows:

Mr. David Tao, Vice Secretary-General,
Organizing Committee of Engine Symposium 2007
CSICE / Chinese National Member Association of CIMAC
2500 Jun gong Road, Shanghai ,200432, China
