

Press Release

December 2011

CIMAC Circle at Kormarine 2011

CIMAC's perspectives on Eco-friendly diesel engine design and operation in challenging times

words: 305
characters: 1,838

On October 27th 2011 the first CIMAC Circle in Korea was held at the Kormarine trade show in Busan on the subject ***Eco-friendly diesel engine design and operation in challenging times***. A well chosen theme, presciently capturing the circumstances under which the global maritime sector is presently operating attracted a total of 56 registrations. While a strong Korean majority reflected the intense local interest in the Circle and its highly topical subject, there were contingents from a further 9 countries on 3 continents, ensuring a wide ranging discussion of the presentations.

The Panel:

K.K. Lee, MAN Diesel & Turbo Korea Ltd., Korea (panel chair)

Lars Bryndum, MAN Diesel & Turbo SE, Denmark

Dr. German Weisser, Wärtsilä Switzerland, Switzerland

Masahiko Okabe, Mitsubishi Heavy Industries, Japan

J.T. Kim, Hundai Heavy Industries, Korea

Jae-Ung Park, ABB Ltd. Busan, Korea

Hae-Ryong Kweon, Hanjin Shipping, Korea

About CIMAC

The International Council on Combustion Engines (CIMAC) is a non-profit association with members in 24 countries worldwide. Its aims are to bring together and improve understanding between manufacturers of diesel engines and gas turbines, users such as shipowners, utilities and rail operators, and also suppliers, oil companies, classification societies and scientists, to promote the exchange of scientific and technical information via its Congresses and other CIMAC events, to promote Working Group activities, to issue publications and support work in the area of standardization, and to collaborate with other international associations.
