Congress 07

Vienna

Dear Exhibitor

Take the opportunity to be at the CIMAC Exhibition

The Austrian National CIMAC Committee has the pleasure of organising the **25th CIMAC World Congress** on Combustion Engines scheduled for 21 – 24 May 2007 in Vienna/Austria.

It was a special honour for us to have been awarded this Silver Jubilee event by CIMAC, an organization which has been acting for more than 50 years as a lively and attractive forum for engine and turbine builders and users. Today, CIMAC is the most important platform for the dialogue between the engines industry's technical experts and its customers.

The Congress is devoted to the presentation of papers in the fields of marine, power generation and locomotive engine engineering covering state-of-the-art technologies as well as the application of such engines. Moreover, the event provides the unique opportunity to meet colleagues and customers from the industry around the world.

Vienna promises to stand out as one of the most successful CIMAC conferences. Never before have so many papers been submitted for selection and an informative and high-quality meeting is guaranteed.

An exhibition will complement the technical sessions. The exhibition will be located in the same building and thus be closely integrated into the CIMAC conference. This will attract all participants who will visit the exhibition in order to get an overview of the latest product developments. An engaged exhibition management team would like to help in all respects to make your company's presence most successful.

Take this opportunity to put your products in the spotlight and further improve your business. We look forward to seeing you at the Vienna Hofburg.

The 2007 Organising Committee invites you to the 25th CIMAC World Congress on Combustion Technology and thanks you for your participation and support. We wish you a successful and enjoyable stay in Vienna.

A handwritten signature in black ink, which appears to read 'Wojik'.

Karl M. Wojik
President of the 25th CIMAC World Congress

The Association

CIMAC is a worldwide non-profit association consisting of National Member Associations, National Member Groups and Corporate Members in 20 countries in America, Asia and Europe.

It brings together manufacturers of diesel engines and gas turbines, users such as ship-owners, utilities and rail operators and also suppliers, oil companies, classification societies and scientists.

CIMAC was founded in Paris in 1951 where the first Congress took place. Originally CIMAC was organized as an industry event to discuss new ideas and developments within the engine and components industry together with institutes and universities. This massive amount of professional up-to-date knowledge is still available among the CIMAC members and is presented during the Congresses. A very decisive change, however, has taken place over the years - the clients of the engine industry have become interested in participating in the CIMAC Congresses!

Conference Venue

The Hofburg Congress Centre occupies a unique position among the congress centers of the world. The state rooms of the Imperial Palace, the former residence of the Habsburgs, have maintained their original character despite being fitted out with the latest technical equipment. This impressive conference venue combines tradition with the requirements of a modern congress.

The City

Vienna, the former capital of a multi-cultural empire in the heart of Europe, has become an international meeting point, a culture cross-road and a gateway between East and West Europe. Vienna has a long tradition of hosting international events: The Vienna Congress was held in 1814/15, when the new European Order after the victory over Napoleon I was established.

Vienna also has important characteristics needed to qualify as one of the best congress-cities. The city offers a wide range of cultural highlights (theatres, cabarets, historical and modern museums); musical entertainment (the Vienna Boys Choir, the Viennese Philharmonic Orchestra, the Vienna Opera Ball); typical Viennese specialities (Vienna coffee houses, Sacher Torte, Mozartkugeln) as well as breathtaking architecture (Romanticist monuments, Baroque palaces and Art Nouveau buildings).

Congress 07 Vienna

Location and Distance

Vienna is easy to reach: over 40 international airlines connect Vienna with the rest of the world. The airport is located only 19 km from the city centre and for those arriving by train there are regular connections to/from international cities.

Exhibition Area

Congress Hall Foyer:

Area in sqm 700sqm
Weight / sqm max 250kg

Exhibition Stands

Basic grid 3 x 3 m (9 sqm)
Price per sqm € 430,- (excl. VAT 20%)
Stand Height max 2,5m

Timetable

Saturday 19 May	Build Up	07.00 – 22.00
Sunday 20 May	Build Up	07.00 – 18.00
Monday 21May	Opening Ceremony	10.00 – 12.00
Monday 21May	Exhibition Open	12.00 – 18.00
Tuesday 22 May	Exhibition Open	08.30 – 18.00
Wednesday 23 May	Exhibition Open	08.30 – 18.00
Thursday 24 May	Exhibition Open	08.30 – 14.00
Thursday 24 May	Dismantling	14.00 – 24.00
