The European Engine Power Plants Forum 2017

by CIMAC and EUGINE

Wednesday, 28 June 2017 – 10:00 – 12:30
Power-Gen Europe in Köln

Welcome by Axel Kettmann, VP of CIMAC

Keynote speech by Thorsten Herdan, Director General of the energy policy department, German Federal Ministry for Economic Affairs and Energy

“Why the Energiewende needs flexible dispatchable power generation with gas”

Panel discussion

Panelists

- **Thorsten Herdan**, Director General of the energy policy department, German Federal Ministry for Economic Affairs and Energy
- **Kari Hietanen**, Executive VP, Wärtsilä
- **Fabian Huneke**, Senior Expert, Energy Brainpool
- **Representative of a local utility** investing in an engine power plant (tbd)

Moderator: Axel Kettmann, Senior VP, ABB Turbocharging

“Greening engine power plants – the many technology options”

Short presentations

- **„Power-to-Gas – Utilisation of Wind and Solar Energy”**
Presentation by Rolf Bank, MAN Diesel & Turbo
- **“Using the biogas potential”**
Presentation by Carl Richers, GE Jenbacher
- **“Microgrid Solutions - Integration of Engine Power Plants” -**
Presentation by Marcel Zürn, Rolls-Royce Power Systems
- **“Green, Efficient, ... and fast like a Diesel”**
Presentation by Armin Roeseler, Caterpillar Energy Solutions

Closing by Hermann Kröger, VP of EUGINE
