ABOUT CIMAC

CIMAC (Conseil International des Machines a Combustion)-the international council of internal combustion engines- is an international scientific association with its central Secretariat at Frankfurt, Germany.

ABOUT NMA INDIA

NMA INDIA is a registered society and the national member association (NMA), of Central CIMAC, Germany. Genesis of this Indian affiliate had taken place during the celebration of first Indian CIMAC Day, which was held in Mumbai on February 8, 2002. The headquarters of this society is situated at IOC R&D Centre, Faridabad. Since then, around ten corporates have become members of this society. To provide a common scientific platform for users, original equipment manufacturer, fuel, lubricant, additive suppliers, classification societies, academic institutions, research laboratories in the area of internal combustion engines especially of marine engine / DG set engines.

- To integrate, liaise and represent Indian concerns regarding all aspects of internal combustion engines to Central CIMAC so as to articulate the global opinion towards our national concern.
- To organize working / study groups on contemporary issues pertaining to internal combustion engines in order to forge a scientific consensus on all such matters so as to be voiced as collective opinion in relevant scientific forums including Central CIMAC.
- To promote the understanding of all matters concerning the designs, manufacturing, operation, lubrication, fuel quality and emission control for internal combustion engines in India and to facilitate the exchange of information concerning internal combustion engines between all interested organizations and individuals.
